NEW YORK, March 7, 2018 /PRNewswire/ -- Real estate investment management company **iintoo investments Ltd.** ("iintoo") announced a 15.95 percent average annual return on investment, net fees, and \$3 million in regular distributions to investors since its founding in 2015. The returns are based on iintoo's six exited investments to date, with a total asset value of \$50 million, all of which exited ahead of schedule. With assets totaling \$560 million and a global community of 32,000 members, New York-based iintoo opens up access to real estate investments that were once exclusive to professional funders and high net worth individuals.

Starting at \$25,000, accredited investors can invest in ownership shares in high-yield commercial and residential real estate projects that undergo a rigorous due-diligence and approval process by iintoo. Projects made available by iintoo seek to provide investors with double-digit annual returns over a two to three year investment period, with no ongoing management fee.

"We are very proud to have outperformed the market by achieving a nearly 16 percent average net return for our investors," said Eran Roth, Founder and CEO of iintoo. "These results demonstrate that our unique investment model provides the opportunity for any accredited investor to find success with real estate."

Unlike a crowdfunding platform, iintoo works directly with project developers to vet and create business plans to maximize the chances for success. As a global Real Estate Investment Management Company (REIMCO™), iintoo selects all investment opportunities after analyzing and verifying a project's developer, as well as, among other things, the project's construction/renovation plans and revenue forecasts. iintoo also conducts complete project oversight throughout the life of an investment, which includes site visits, progress reports and the handling of quarterly returns.

## About iintoo

Through its online platform, iintoo offers accredited investors triple-vetted real estate investment opportunities in a variety of market segments including ground-up development, residential housing, student housing, senior living, hospitality, office buildings and mixed-use assets. Projects span the U.S. in cities that include New York, Denver, Atlanta, St. Louis, San Diego, Tulsa, OK, Wichita Falls, TX, Savannah, GA, Veron, CT, Warrensburg, MO and Terre Haute, IN. Investors can access opportunities through iintoo's social investment network at [iintoo.com](http://www.iintoo.com), which allows them to choose projects a la carte and interact with each other, trade tips and share industry knowledge.
